Mandalay, Myanmar

TECHNICAL SKILLS

Programming

Python, Java, C, HTML, JavaFX, Android development

Web and databases

PHP, MySQL, XAMPP, phpMyAdmin

Systems and tools

Linux / Ubuntu, Windows, Git, command line

HPC and computing

MPI, parallel computing, Amdahl's Law, algorithm analysis

STRENGTHS

Problem solving

Fast learner

Teamwork & communication

Logical thinking

Willingness to learn

Adaptability

PROFILE

Final-year Computer Science student specializing in High Performance Computing (HPC) with a strong interest in software development, Linux systems, networking, and cybersecurity. Familiar with multiple programming languages and interested in applying academic knowledge to real-world technical environments. A motivated learner seeking an internship opportunity to develop practical skills, contribute to a professional team, and gain hands-on industry experience.

EDUCATION

University of Computer Studies, Mandalay (UCSM)

2022 - Present

Bachelor of Computer Science
High Performance Computing (HPC)

INN GYINN PANN EAINN | 2019-2020

PROJECT EXPERIENCE

Chatbot Web Application

PHP · MySQL · XAMPP · phpMyAdmin

- Developed a PHP/MySQL chatbot that matches questions to stored answers and displays text and image responses.
- Implemented user registration and login, with separate user and administrator interfaces.
- Built tools to manage question-and-answer content, review unanswered queries, and collect user feedback.
- Connected the chat interface to PHP using AJAX and configured local development with XAMPP.

Game Launcher Website

AI-assisted development · HTML, CSS, JavaScript

- Assembled 12 browser games created with AI assistance into a responsive game launcher.
- Added game previews, embedded play, full-screen controls, and navigation back to the library.
